Subject: Bill Morris DRAFT comments
Attachments: Tech Memo for Comments on TRW Microwave Passive System Sunnyvale CA 05182022.pdf

Matt,

following Michael's suggestion I asked APTIM to contact Bill Morris and provide us feedback.

See attached the two page DRAFT comments from Bill. He does agree with your comments and recommendations but he also added a few other notes.

I was hoping to discuss this with you on a brief call tomorrow morning at 8am (see my invite). No need to provide written comments, this is just an initial draft from Bill for our consideration.

I will have a call with Bill at 9am, let me know if you would like to join us. Sorry for the short notice but all this just happened today!

Thanks!
